

FRAGMNT_S

Desde un disco duro roto, esta obra nos lleva a un viaje que reconstruye momentos para recordar a un abuelo difunto. Es una reflexión sobre la fragilidad de la memoria tanto humana como digital, el miedo a que desaparezca y nosotros con ella.

From a broken hard drive, this work takes us on a journey of reconstruction of moments to remember a late grandfather. A reflection on the fragility of both human and digital memory, the fear of it disappearing, and us with it.
